History and Theory after the Fall: An Essay on Interpretation by Fred Weinstein ISBN 0226886069  
In this ambitious work, Fred Weinstein confronts the obstacles that have increasingly frustrated our attempts to explain social and historical reality. Traditionally, we have relied on history and social theory to describe the ways people understand the world they live in. But the ordering explanations we have always used—derived from the classical social theories originally forged by Marx, Tocqueville, Weber, Durkheim, Freud—have collapsed.

In the wake of this collapse or "fall," the rival claims of fiction, psychoanalysis, sociology, anthropology, and history have created the dilemma of radical relativism, the prospect of multiple interpretations of any complex historical event. The basic strategy of social theory and the social sciences—the search for underlying unities—proves so inherently contradictory and has provided

so little in the way of reliable knowledge of social and historical relationships that to many critics it seems no longer worth pursuing.

Weinstein enters the debate by rejecting any search for underlying structural unities, dynamic or social, through which historians have attempted to find continuity with the past. He looks instead to ideological processes, to the construction of successive and changing versions of reality that mediate between the power of fantasy on the one side and the power of the social world on the other. He argues further that the need to use ideological constructs in this way accounts for the heterogeneous and changing content of social movements and for the persistent need people have always had for authoritative leaders, even in democratized societies. He suggests that people have historically been able to take a step away from leaders only by substituting the possession of objects such as property or money. This book is a breakthrough in poststructuralist theory that is sure to stimulate considerable discussion, especially about the shape of the social sciences and the future of historical interpretation.

## **History and Theory after the Fall: An Essay on Interpretation Review**

This History and Theory after the Fall: An Essay on Interpretation book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This kind of History and Theory after the Fall: An Essay on Interpretation without we recognize teach the one who looking at it become critical in imagining and analyzing. Don't be worry History and Theory after the Fall: An Essay on Interpretation can bring any time you are and not make your tote space or bookshelves' grow to be full because you can have it inside your lovely laptop even cell phone. This History and Theory after the Fall: An Essay on Interpretation having great arrangement in word and layout, so you will not really feel uninterested in reading.
