Investment Management: Meeting the Noble Challenges of Funding Pensions, Deficits, and Growth (Wiley Finance) by ISBN 0470455942

Praise for Investment Management

"A compelling analysis of the challenges of investment management, and why investment management firms require innovation to succeed."

—Blake Grossman, CEO, Barclays Global Investors

"Great investment managers understand that positioning portfolios for clients should not be an act

of conformity, but rather a constant journey of shifting fundamentals and opinion. Wayne and Ralph bring this fact to life by addressing some of the key challenges to serious investment thinking, using top-level researchers in their respective fields. For those investment managers and clients who want to go beyond the ordinary."

—Jeff Diermeier, former CEO of CFA Institute and retired CIO of UBS Global Asset Management

"The essays in this book provide an invaluable reference point of serious readings for money managers. The works provide the analyst with the most recent scholarship in a single book, presenting ideas and philosophy that will lead me back to its various sections time and time again."

—Kenneth S. Hackel, CFA, President, CT Capital LLC

"The crash of 2007–2009 brought a harsh conclusion to a quarter of a century of unprecedented growth and prosperity for the investment management industry, which faces no less a task than reinventing itself. Rieves' and Wagner's contribution to the way forward couldn't be timelier."

—Richard Ennis, Principal, Ennis Knupp + Associates

"This book uniformly focuses on the best practices to which investment management professionals should commit. I highly recommend this book to investment managers, sales people, and trustees of pensions, endowments, trusts, and mutual funds."

—Jack Clark Francis, PhD, Professor of Economics and Finance, Bernard Baruch College
