However, there are questions about what we mean by 'thinking', how best to teach it and how best to assess it, and it is these

questions that this handbook explores and addresses.

Containing surveys and summaries of international, cutting-edge research on every aspect of teaching thinking in a range of contexts, the handbook is thorough in its delivery, examining many different approaches and methods to help readers understand what teaching thinking is and how we can best take this movement forward. Key topics include:

- Theoretical perspectives on teaching thinking
- Approaches for teaching thinking
- Developing creative thinking
- Developing critical thinking and metacognition
