The Search for the Giant Squid by Richard Ellis ISBN 1558216898

Lurking in the depths of the ocean is a fearsome creature of proportions that stagger the imagination. At least sixty feet long and weighing more than a ton; with two elongated, whip-like tentacles and eight grasping arms studded with toothed suckers; with a huge beak between its arms and two lidless eyes the size of dinner plates---this is the giant squid, one of the largest animals on earth and one of the least known. Until now.
