

Stiffed: The Betrayal of the American Man PDF

Stiffed: The Betrayal of the American Man by Susan Faludi ISBN 0380720450

One of the most talked-about books of last year, the Pulitzer Prize-winning author of *Backlash* now explores the collapse of traditional masculinity that has left men feeling betrayed. With *Backlash* in 1991, Susan Faludi broke new ground when she put her finger directly on the problem bedeviling women, and the light of recognition dawned on millions of her readers: what's making women miserable isn't something they're doing to themselves in the name of independence. It's something our society is doing to women. The book was nothing less than a landmark. Now in *Stiffed*, the author turns her attention to the masculinity crisis plaguing our culture at the end of the '90s, an era of massive layoffs, "Angry White Male" politics, and Million Man marches. As much as the culture wants to proclaim that men are made miserable--or brutal or violent or irresponsible--by their inner

nature and their hormones, Faludi finds that even in the world they supposedly own and run, men are at the mercy of cultural forces that disfigure their lives and destroy their chance at happiness. As traditional masculinity continues to collapse, the once-valued male attributes of craft, loyalty, and social utility are no longer honored, much less rewarded. Faludi's journey through the modern masculine landscape takes her into the lives of individual men whose accounts reveal the heart of the male dilemma. *Stiffed* brings us into the world of industrial workers, sports fans, combat veterans, evangelical husbands, militiamen, astronauts, and troubled "bad" boys--whose sense that they've lost their skills, jobs, civic roles, wives, teams, and a secure future is only one symptom of a larger and historic betrayal.

Stiffed: The Betrayal of the American Man Review

This Stiffed: The Betrayal of the American Man book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get.
