ISBN 1591796067

You might think there's no place for spirit in politics, but Caroline Myss reminds us that "our founders initiated a divine contract when they created this nation. One that honors the natural laws of the human spirit." On *The Sacred Contract of America*, she expounds on her idea that we are individually contracted to fulfill a destiny, and shows us how countries, too, possess agreements as part of our planet's evolution. With this groundbreaking new recording, she sends out an urgent call for us to reconnect with America's original vision of freedom and liberty, and invites us to explore: How your Sacred Contract is woven into that of our nation, and how this knowledge empowers you to be a conscious citizen; Why our Constitution is in serious jeopardy, and what each of us can do to save it; The twelve archetypes of America, including the Mystic, the Entrepreneur, and the Rebel; and the historical figures who represented them.
