Candida overgrowth, says award-winning author Ann Boroch, is the hidden cause of many health conditions, from allergies, bloating, IBS, sinusitis, and fatigue to eczema, anxiety, depression, brain fog, and autoimmune disease. A certified nutritional consultant and naturopath, she developed her effective candida-cure program after healing herself of MS. Today, one out of three people suffers from candida overgrowth, most without ever realizing it. One of the causes of

this out-of-balance condition is a poor diet. Eating the right kinds of foods, ones that don't create inflammation or feed yeast and fungus in the body, can help control candida, reset the body's balance, and bring back your energy. If you've tried different approaches to heal a nagging health problem without success, or if you just can't seem to lose weight or don't have enough energy, Ann Boroch's candida-cure diet could be the answer for you.
