Fast foods may have been the meal of choice for many busy families through the last couple of decades. But now the slow cooked, home-prepared meals are gaining in popularity! Crock pots, with their wafting aromas and 'ready to eat' meals, entice health-conscious, busy people.

And it doesn't take super human talent, skill, or effort to make a delicious meal in a crockpot - in fact there are quite a few crockpot recipes that require 5 or less ingredients! And crockpot cooking can be as simple as tossing a few ingredients into the pot before everyone leaves for the day. In the evening, the smell of slow cooked food fills the house and whets the appetite. There's no more last minute trip to the grocery store, or the endless 'what's for dinner' questions.
