Excerpt:

The only light in the room was the computer screen and the dim light over my bathroom sink. Returning, I handed him his glass. He was slouched forward now with his ass on the edge of the chair, his legs were uncrossed and spread wide. His left hand was on his thigh; his thumb was slowly rubbing back and forth on the cock shaft. "Feel good?" I asked.

"Yea," he said grinning at me shyly. "This is my friend. I make him feel good and he makes me feel

good. We kind of take care of each other since we don't have any other friends to do it for us." His strokes were having an effect on both of us. Even in the dim light, the crown of his cock head was clearly visible now and he was getting thicker. My cock had expanded and was probably visible also. Continuing to nuzzle him and lick his meat, I fished his balls out of the snug fabric and rubbed them. Then sliding down, I started slowly sucking one hairy nut at a time the whole time tugging his trunks down until the waistband was resting on the top of his cock. He was now almost completely hard; he was indeed very thick. I judged it to be probably seven inches long. I moved up and started nuzzling and licking his thick, course bush, taking mouth fulls of hair and chewing on it. I knew I was putting on a show for him but he was going to see a real cocksucker at work. Too few men actually knew what a good suck was all about. Anyone can slobber on a man's poll and call it a blowjob. It took little skill to bring a man off but real cock sucking was an art form.

His cock was now as hard as ...
