Vastu: Breathing Life into Space PDF

Vastu: Breathing Life into Space by Robert E. Svoboda ISBN 0988916908

Robert Svoboda addresses V stu, the classical Indian art (or science) of architectural form, in a wholly unique way. Instead of presenting lists of rules and architectural injunctions to which builders and interior designers must scrupulously adhere at all times, he sensitizes the reader to the dynamics of space, alignment, and form in ever-expanding orbits of individual life. In the process of guiding the reader through a series of meditations on the dynamics of space and alignment, Dr. Svoboda enters the realms of classical Indian medicine (yurveda) and astrology (Jyoti a), which, it turns out, are of the greatest importance to realizing V stu and its contours in one s life. Dr. Svoboda allows readers and home builders to understand the complex dynamics of individual, terrestrial, and celestial energetic systems. This leads to a greater awareness of the nature of space and its application to house construction, interior spaces, gardens, one s relationship with the land, and, consequently, one s relationship with oneself.

Vastu: Breathing Life into Space Review

This Vastu: Breathing Life into Space book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this reserve incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get.
