JavaTM Programming with CORBATM : Advanced Techniques for Building Distributed Applications PDF

JavaTM Programming with CORBATM : Advanced Techniques for Building Distributed Applications by Gerald Brose, Keith Duddy ISBN 0471376817

The leading guide for Java developers who build business applications with CORBA

Acknowledged experts present advanced techniques and real-world examples for building both simple and complex programs using Java with CORBA. The authors begin with a quick overview of CORBA, Java, object request brokers (ORBs), and EJB components, then quickly move on to show how to use them to build complete Java applications. This new volume features in-depth code examples, as well as expanded coverage of cutting-edge topics, including Portable Object Adaptor (POA), Remote Method Invocation (RMI) over IIOP, and EJB.
