Virtual Learning Environments: Concepts, Methodologies, Tools and Applications PDF

Virtual Learning Environments: Concepts, Methodologies, Tools and Applications by USA Information Resources Management Association ISBN 146660011X
As the world rapidly moves online, sectors from management, industry, government, and education have broadly begun to virtualize the way people interact and learn.

Virtual Learning Environments: Concepts, Methodologies, Tools and Applications is a three-volume compendium of the latest research, case studies, theories, and methodologies within the field of virtual learning environments. As networks get faster, cheaper, safer, and more reliable, their applications grow at a rate that makes it difficult for the typical practitioner to keep abreast. With a wide range of subjects, spanning from authors across the globe and with applications at different levels of education and higher learning, this reference guide serves academics and

practitioners alike, indexed and categorized easily for study and application.
