# Struts: The Complete Reference (Osborne Complete Reference Series) PDF

Struts: The Complete Reference (Osborne Complete Reference Series) by James Holmes ISBN 0072231319

In his new book, James Holmes, a "Committer" on the Struts development team, provides you with the first comprehensive treatment of Struts 1.1. His coverage begins with a comprehensive tutorial, followed by in-depth coverage of API, config files, Struts' tag library, and an entire section on end-to-end application development. He also emphasizes ways to handle Struts' most complex concepts including tiles, validators, security, and internationalization. Insider tips and techniques for making an amazing Struts application take you to that next level of manipulating this cutting-edge framework. Source code is available online.
